

The Importance of Partners: ECI Developments

Hello there Freedom Seekers!

With Anarchapulco 2025 AscenDANCE just around the bend, there lies a lingering question among some of you. You may wonder how we are able to deliver such an impactful and incredible experience every year! How does Anarchapulco do it?

With a little help from our friends of course!

One long and lasting relationship in particular that has stood the test of time has been the partnership between Anarchapulco and ECI Developments!

ECI Developments has been a dedicated sponsor and partner with Anarchapulco for a very long time. The partnership was first established when Jeff Berwick (Mr. Anarchapulco) met with Michael Cobb who is one of the co-founders of ECI.

Michael Cobb makes annual appearances at Anarchapulco setting up a booth, attending Q&As and speaking on behalf of the real-estate development company. Michael along with ECI Development has been providing new and enduring opportunities since 1996, for those seeking “a-way-out” of the colorless and bleak “concrete jungles” supplying a much more fortunate, reliable and sustainable way of living. Like their motto says “Creating value through socially responsible development.”

With 28 years of service under their belt, ECI Development’s dedicated and hardworking team most certainly has a lot to show for it. They’ve covered an impressive amount of ground so far making their mark in 6 countries:

- Belize (*A Place Where Heritage Meets Adventure!*)
- Costa Rica (*Welcome to the Land of Pura Vida!*)
- Nicaragua (*Endless Wonders From the Caribbean to the Pacific!*)
- Honduras (*Rich Biodiversity and Colorful Culture Awaits You!*)
- Panama (*Old-World Charm Meets Modern!*)
- Portugal (*Rich History and Breathtaking Magic!*)

They’ve set a strong vision in place and of utmost importance, built a concrete partnership with Anarchapulco along the way. You can go a long way in life when you set in place sturdy and solid foundations when you can build long lasting friendships and relationships. Never burn down those bridges when you can restore and improve them!

If you are interested in the upcoming developments ECI has in store as well as the unannounced plans they have for the future, be sure to get your tickets now by visiting the link below:

Anarchapulco 2025 ascenDANCE
