Hi Liz... I wanted to thank ya for helping out the other day with the mail forward. Also wanted to ask you a question. Did you put a hold on my mail going out? Because suddenly today I got a letter from TD and a parcel.

Hi :) You're welcome! I did leave a note but I didn't get a chance to talk to the carrier in the morning before they left so maybe they had something with them? I'll make sure to speak with them first thing Monday morning to make sure they don't deliver at all. You got it today though? We don't deliver

Hey Liz, I have a concern I would like to discuss. Over the last several months my credit cards and health cards have been going missing. That is why I purchased the PO BOX. My most recent re order of my Health Card after opening my PO BOX has not arrived so I visited Service Ontario to re order another one. The Service Ontario representative said "address is undeliverable" when I have been receiving certified mail directly to the PO BOX via mail forward. I am involved in a deep investigation concerning the rotary club and it's connections influencing, manipulating, and defrauding me, and it seems important mail is not being delivered, is being bypassed,

being delivered, is being bypassed, and returned to sender. Do you have any information on this? The forwarding address is 636 Shafer Avenue. I have received my updated driver's license in 2024, but correspondence after that has been dodgy. It suspiciously aligns with when I purchased property in Nicaragua from a company headed by a rotary club ambassador and Pittsburgh rotary president Joel Nagel, who I have found operating illegally, and who I am alleging is influencing and paying people off. This is all part of a larger investigation, so am letting you know ahead of time, this message will be used in a court of law. Thank you for you understanding. Best regards, Mark Lepore
