CRA MAIN Submission MISSION IGNITION SYSTEMS LTD and MARK CARMEN LEPORE_v2.pdf; PAGE 12 OF 12.pdf;

Good day Elvis. I will forego the long introductions and get right to business as to respect our time in these endeavors.

To lead, I understand these discussions are protected, and will treat them with the privacy, duty and care deserved.

What has come in attention to these matters, are situations which have escalated to what are believed beyond reasonably sound decision making protocols, and have escalated beyond reasonable and sound mind actions against my Clients MARK LEPORE and MISSION IGNITION SYSTEMS LTD. Full time line of events is provided in the attachment with links to the evidence documents.

In summation,

The immediate, and most pressing matter. Our clients, MARK LEPORE, and MISSION IGNITION SYSTEMS LTD., have both been forwarded foreign tax bills from CANADIAN regulatory agencies indicating fraudulent filings and earnings unknown to our Clients. This clearly shows foreign interference, unknown earnings, forgery, and identity theft from a foreign state actor in trust, which are unknown to our Clients. Our Clients, have not filed, or agreed to file, taxes due to extenuating circumstances surrounding non disclosure of assets between 2020 and 2025. This allegedly being used to defraud and frame our Clients in actions not committed, and unknown by them.

Between 2021 and 2025, MARK LEPORE, sole owner and operator of MISSION IGNITION SYSTEMS LTD, had acquired property in Gran Pacifica Nicaragua, and lived there several years without filing taxes due to circumstances surrounding the then pandemic outbreak, and failure to disclose state of asset holdings by GEORGETOWN TRUST or any of its constituents. During this time where no taxes were filed, the CANADIAN REVENUE AGENCY issued foreign tax bills indicating a third party filled out, and filed, foreign taxes on the Clients behalf, without our Clients consent or knowledge of such. Client disclosed the only foreign asset purchases made, were through ECI DEVELOPMENT, JOEL NAGEL, and MIKE COBB. This indicates forgery, uttering forged documents between relevant agencies, collusion, neglect of duty and care, gang stalking, targeting, among several other serious allegations.

MISSION IGNITION SYSTEMS LTD., holds valuable intellectual property, including technology holding extreme value to the UNITED STATES military industrial complex. It is alleged, this technology, is the

focus of the targeting, forgery, and collusion between members in our Clients home town, and ECI DEVELOPMENT / GEORGETOWN TRUST. Further concerning matters are the several injuries, and damages done to MARK LEPORE sustained while in GRAN PACIFICA NICARAGUA indicating the possibility of intentional harm for extremely high value military technologies now licensed by NASA without authorization. This points towards collusion of agencies for highly sensitive, and extremely valuable, intellectual property.

Payments and distributions of licensed technology are unknown to our Clients, have not been agreed to, paid in trust, or otherwise as far as our clients are aware.

Due to the sensitivity of these matters, our Clients made it aware the only foreign property or purchases made have been through ECI DEVELOPMENT, MIKE COBB, and JOEL NAGEL. ECI DEVELOPMENT tied in trust to GEORGETOWN TRUST, in care of MIKE COBB and JOEL NAGEL, also tied to WASHINGTON DC, NASA, and its constituents. This links GEORGETOWN TRUST in forgery of our Clients signature, the intellectual property of MISSION IGNITION SYSTEMS LTD. being licensed through NASA, without our Clients awareness. Our firm issued a request for disclosure of all asset holdings informing silence as an admission of guilt concerning non disclosure of holdings held within ECI DEVELOPMENT, GEORGETOWN TRUST, or any of its constituents. This shows, without reasonable doubt, assets had been moved into GEORGETOWN TRUST without our Clients awareness or consent. This is extremely concerning, lacking duty and care, shows co ordinated crime, and malicious efforts against our Clients for sensitive and extremely valuable IP. Also concerning are the several frauds committed by JOEL NAGEL on record dating back 20 years without any regulatory oversight or correction, indicating clear patterns of behavior in fraud without any regulatory oversight.

During this time frame, notices to the RCMP, Local Authorities, ONTARIO SECURITIES COMMISSION, and FINTRAC were made, to protect the identity of our Clients. It is shown, with clear evidence, these agencies to be in possession of forgeries without their knowledge as shown in the documents and time line of events.

This said, the theft of identification, credit cards, health cards, and otherwise, show CANADIAN Persons in collusion with these efforts. This, most likely tied to our Clients father, JOE LEPORE, who had full access to Clients home, social insurance number since birth, and business documents allowing for co ordinated efforts between GEORGETOWN TRUST, and direct family. It is alleged other connected authorities may have been involved in mail theft as well as mail re direction to target our Clients in their home town, in collusion with JOEL NAGEL, MIKE COBB and GEORGETOWN TRUST, showing co ordinated targeting across several agencies for valuable intellectual property.

Non withstanding, this is simply the opening matter of state, also including non disclosed share, dividend payments which have not been issued, or stolen from mail, clear lack of asset status, ownership, potentially in trust, without our Clients awareness.

The existing state of matter has implicated our Clients in potential frauds which were advised to be, and have been, fully disclosed to CANADIAN authorities. This causing irreparable damage to identity, reputation, financial harm, and operating state of MISSION IGNITION SYSTEMS LTD., and MARK LEPORE, who have been unable to sell to clients due to being adrift and unable to file taxes without awareness of assets in trust (please note folder z for several aerospace, and automotive contracts lost due to these matters).

What is requested is full monetary resolution, compensation, damages, and justice in these matters,

specifically, those who issued orders for these crimes. Also, re distribution of existing contracts, and earnings re directed to our Clients, as well as full disclosure of any financial vehicles, assets, or otherwise concerning MARK LEPORE or MISSION IGNITION SYSTEMS LTD. This including, but not limited to, all associations, partners, agencies, trusts, companies, financial vehicles, or otherwise concerning our Clients, GEORGETOWN TRUST, JOEL NAGEL, MIKE COBB, ECI DEVELOPMENT, CAYE BANK, or any of its related, affiliated, associations, entities, companies, or otherwise.

In our view, these matters have went above and beyond reasonable decision making of leadership, has left both MARK LEPORE and MISSION IGNITION SYSTEMS LTD. adrift while being targeted and harmed while adrift, and recommend resolution before escalating within the CANADIAN justice system.

We are requesting to maroon Persons and Leadership responsible within agencies who issued orders directly against our Clients in these organized crimes. It may also be wise to compensate individuals indirectly affected in these attacks due to leaderships poor decision making.

Other matters, less serious, yet still relevant, is the state of dis repair to the home while being unable to attend Gran Pacifica Nicaragua, the state of solar system which has been installed without engineering oversight, the lack of duty and care to the entrance of the property in Gran Pacifica Nicaragua, the non payment of Teak distributions as the two lots purchased have matured and no payout delivered as promised, and the non delivery of dividend payments for share holdings.

The genuine prayer is for bridges to be built in the community, and in Nicaragua, so business can continue as scheduled, and with minimal intrusion to regular operations. With this, it would be wise to re allocate owed funds, agreements in trust, to MISSION IGNITION SYSTEMS LTD., and MARK LEPORE, so regular operations can resume, and justice served as necessary to avoid further unnecessary conflict.

It is our firms genuine prayer for calm, civil, and clear minds to prevail in grounded, rational, and beneficial outcomes for all parties in these discussions, as well as justice served without higher level audits and escalation. It is our sincere wish to avoid public escalation and investigation of intruding Persons... yet... we are prepared to take action as necessary, as required for justice.

Please review the attached evidence EXHIBITS here ->
