Good Day Leo,

Welcome to the fall in the Nicaragua! As you read ahead enjoy some highlights of this season. Let's dive into the vibrant happenings and the exclusive offer awaiting you in Nicaragua.

## Sustainable Education Empowering Communities

A recent initiative focused on empowering rural youth through sustainable education aims to enhance the skills and knowledge of young people in underprivileged areas. The program emphasizes practical training in sustainable practices, equipping participants with tools to improve their livelihoods and promote environmental stewardship. By fostering a deeper understanding of sustainable development, the initiative seeks to inspire a new generation of leaders who can drive positive change in their communities. This effort not only addresses immediate educational needs but also lays the groundwork for long-term economic and environmental sustainability.

## Canadians flock to Nicaragua

Canada plays a vital role in Nicaragua's tourism industry, with Canadians ranking among the country's top visitors. It showcases Nicaragua's appealing features, such as its rich cultural experiences, breathtaking landscapes, and opportunities for eco-tourism, which attract Canadian travelers. Additionally, it highlights the collaborative initiatives between Nicaraguan tourism authorities and Canadian partners to promote the destination, improve travel accessibility, and address diverse traveler interests, all aimed at boosting Canadian tourism to Nicaragua.

## [Explore the beauty of Ometepe](#)

The San Ramon Waterfalls in Ometepe are a must see on your next trip to Nicaragua. Ometepe is primarily known for the two iconic volcanoes which make up the island but the beauty that are the San Ramon Waterfalls are a less known spot among tourists.

## Chair the Love

We have been honored to partner with Chair the Love and their vision of providing equipment and services to people with mobility issues assisting them with regaining their independence since 2016 in Nicaragua. In 2004, Glen Mather went to Mexico City for a wheelchair distribution. When he arrived, he was deeply moved by the response and joy of the recipients, and decided that he wanted to find a larger way to help. With the kindness and generosity of others, the tribe of people wanting to help grew; so much so that he created his own charity: [Chair the Love](#).
