Full details on globalscandal.com I was sold shares of a company that does not exist, was not registered in Canada for solicitation of shares, or sale of shares, and no prospectus was done to prove my accreditation, or Know Your Customer protocols, for these shares (which I do not fit). Shares were sold illegally, as well as homes. Homes are sold under a Trust in Belize known as GeorgeTown Trust, unbeknown to customers. The goal is that customers build the assets, and then the Trust takes over the assets after death of the customer. A lawsuit between two owners has revealed everything has been forged, and illegally placed under said Trust. Also, the homes were designed dangerously, without oversight, and are catching fire. This does not fit the "first world standards" as was advertised.
